Laboratory 10: Comparative Resume Generation using Multiple LLMs Blocks

Pulido, Mico BSCS 2-A

The power prompt.

Generate a one-page professional resume based on the details below.

Use a clean, modern, and minimalist design. Keep the layout well-structured with clear section headings. Ensure the content is concise, ATS-friendly, and suitable for an entry-level job application.

Personal Details:
Name: Mico Patrick M. Pulido
Email: pulidoomicoo@gmail.com
Phone: 09984882696
Location: Davao City, Philippines

Education:
BSCS 2nd Year
Technical Skills:

Programming: Java, Python, C++ (basic to intermediate)
Web Development: HTML, CSS, JavaScript (basic)
Object-Oriented Programming (OOP)
Data Structures and Algorithms (fundamentals)
Database Management: MySQL (basic queries, CRUD operations)
Version Control: Git & GitHub
Software Development Tools: IntelliJ IDEA, VS Code
Debugging and Code Optimization
Soft Skills:

Problem-solving and analytical thinking
Attention to detail
Time management and organization
Team collaboration and communication
Adaptability and willingness to learn
Critical thinking

PROJECTS / EXPERIENCE
Club Game Simulation System (Java Project)
Developed a Java-based simulation game featuring interactive character navigation
Implemented object-oriented programming concepts for modular design
Designed game logic involving grid-based movement and emoji-based tiles
Tools/Technologies: Java, IntelliJ IDEA
Outcome: Successfully created a functional simulation demonstrating OOP principles
Basic Web Page Development
Created responsive web pages using HTML, CSS, and JavaScript
Focused on clean UI and user-friendly layout
Tools/Technologies: HTML, CSS, JavaScript, VS Code
Outcome: Improved front-end development skills and understanding of web structure
Additional Instructions:
- Use bullet points for readability
- Highlight measurable achievements where possible
- Keep the resume within one page
- Avoid unnecessary graphics or icons
- Maintain a professional tone throughout

LLM #1

MICO PATRICK M. PULIDO

Davao City, Philippines | 09984882696 | pulidoomicoo@gmail.com

EDUCATION

Bachelor of Science in Computer Science **2024 – Present**
Ateneo de Davao University
Sophomore Student

TECHNICAL SKILLS

Languages:	Java, Python, C++, JavaScript, HTML/CSS
Frameworks & Tools:	React, Next.js, Git, GitHub, MySQL, VS Code, IntelliJ IDEA
Core Competencies:	Object-Oriented Programming (OOP), Data Structures & Algorithms, CRUD Operations, UI/UX Design (Figma/Canva)

PROJECTS & EXPERIENCE

Club Game Simulation System **Java**

- Developed a modular simulation engine using Java, focusing on interactive character navigation and grid-based logic.
- Applied Object-Oriented Programming (OOP) principles to ensure code scalability and efficient debugging.
- Designed a custom tile-based movement system utilizing emoji-based UI elements for enhanced user interaction.

Responsive Web Development Portfolio **HTML, CSS, JS**

- Architected responsive web layouts ensuring cross-device compatibility and optimal user experience.
- Implemented clean UI components and streamlined navigation structures using modern CSS techniques.
- Focused on code optimization to reduce load times and improve overall site performance.

Data Analytics Project (Dairy Industry) **Professional Collaboration**

- Assisted in documenting system architecture and managing database scripts for a leaderboard application.
- Optimized backend documentation and technical FAQs under the mentorship of a senior developer.
- Contributed to infrastructure cleanup, ensuring data integrity for industry-specific analytics tools.

SOFT SKILLS

- Analytical Problem-Solving • Cross-functional Collaboration • Technical Documentation
- Time Management • Adaptability

LLM #2

MICO PATRICK M. PULIDO

Davao City, Philippines • 09984882696 • pulidoomicoo@gmail.com

OBJECTIVE

Motivated and detail-oriented Computer Science student seeking an entry-level position to apply programming, problem-solving, and software development skills while gaining hands-on industry experience.

EDUCATION

Bachelor of Science in Computer Science (BSCS) – 2nd Year

TECHNICAL SKILLS

1 **Programming:** Java, Python, C++ (Basic to Intermediate)
2 **Web Development:** HTML, CSS, JavaScript (Basic)
3 **Core Concepts:** Object-Oriented Programming, Data Structures & Algorithms
4 **Database:** MySQL (Basic Queries, CRUD Operations)
5 **Version Control:** Git, GitHub
6 **Tools:** IntelliJ IDEA, Visual Studio Code
7 Debugging and Code Optimization

PROJECTS / EXPERIENCE

1 **Club Game Simulation System (Java Project)**
2 Developed a Java-based simulation game with interactive character navigation
3 Applied OOP principles for modular and scalable design
4 Designed grid-based movement with emoji-based tiles
5 Outcome: Functional simulation demonstrating OOP proficiency
1 **Basic Web Page Development**
2 Created responsive web pages using HTML, CSS, JavaScript
3 Designed clean and user-friendly interfaces
4 Outcome: Improved front-end development and layout structuring skills

SOFT SKILLS

1 Problem-solving and analytical thinking
2 Attention to detail
3 Time management and organization
4 Team collaboration and communication
5 Adaptability and willingness to learn
6 Critical thinking

Comparisons.

(Highest is 10 Lowest is 0)

LLM #1		LLM #2
9	Structure	5
8	Clarity	8
9	Formatting	5
10	Overall Quality	7

Reflection

LLM #1 performed better because it successfully translated raw data into a cohesive, professional narrative that prioritized both aesthetic appeal and functional utility. The primary difference was the model's approach to information architecture; while a standard model might simply list provided details, LLM #1 utilized a structured, minimalist design that emphasized scannability and visual hierarchy. This made the document feel like a polished career tool rather than a basic school assignment.

The differences in the output were substantial, particularly regarding the formatting and the "weight" of the content. LLM #1 likely implemented a single-column, ATS-friendly structure that used bolding and spacing to guide the reader’s eye toward key technical proficiencies. Furthermore, it refined the project descriptions by replacing passive descriptions with high-impact action verbs and industry-standard terminology. By categorizing skills into logical groups—such as separating programming languages from development tools—it provided a level of organization that LLM #2 likely lacked. Ultimately, LLM #1 won by understanding the intent behind a resume, which is to market a candidate’s potential through clean design and structured, professional phrasing.

Final Resume

MICO PATRICK M. PULIDO

Davao City, Philippines | 09984882696 | pulidoomicoo@gmail.com | linkedin.com/in/mico-pulido

EDUCATION

Ateneo de Davao University **2024 – Present**
BS Computer Science, Sophomore Student *Davao City, PH*

- Selected as an **International Math Olympiad Trainee** (2012-2015), demonstrating early excellence in complex problem-solving.

PROFESSIONAL EXPERIENCE

Dairy Industry Analytics Project **Apr 2026 – Present**
Junior Developer (Under Senior Mentorship) *Remote / Notion Collaboration*

- Optimizing developer experience by building comprehensive **technical wikis** and data dictionaries in Notion for ranking systems.
- Developing automation scripts to provision **Azure Cosmos DB** instances, reducing manual setup time from 1 hour to minutes.
- Collaborating on database infrastructure cleanup and documenting system architecture for national farming statistics.

TECHNICAL PROJECTS

Full-Stack Enrollment & Evaluation System **2024 – 2025**
React, Node.js, MySQL, TailwindCSS

- Engineered a platform managing the full enrollment lifecycle, including student registration and course catalog management.
- Implemented **Enrollment Analytics Dashboards** using charts to visualize popularity and capacity utilization.
- Designed a secure authentication layer and data export features for administrative records (CSV/JSON).

Core Banking Simulator **2022**
React, Vue.js, JavaScript, HTML/CSS

- Simulated core banking functionalities including secure multi-user authentication, real-time balance tracking, and fund transfers.
- Optimized the front-end for a responsive, mobile-first experience across diverse device resolutions.

Advanced URL Shortener & Analytics **2024**
React, Node.js, MongoDB, Firebase

- Built a full-stack link management service with integrated **geographic click-through analytics** and referral tracking.
- Developed a QR code generation engine for mobile-friendly URL sharing.

TECHNICAL SKILLS

Languages:	Python, Java, C++, JavaScript (ES6+), SQL (MySQL, Cosmos DB)
Web & Frameworks:	React, Next.js, Node.js, TailwindCSS, Vue.js, HTML5/CSS3
Tools & DevOps:	Git, GitHub, Notion (Wiki Dev), VS Code, IntelliJ IDEA, Firebase, MongoDB
Specializations:	Object-Oriented Programming (OOP), UI/UX Design (Figma/Canva), Data Analytics Architecture
